

APPLICATION FOR PERMIT

Serial No. 6672

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of first receipt and filing in State Engineer's office MAY 3 1922
Returned to applicant for correction _____
Corrected application filed _____

The undersigned Preston Irrigation Company, a corporation
Name of applicant
of Preston, County of White Pine,
State of Nevada, hereby make application for
permission to appropriate the public waters of the State of Nevada, as
hereinafter stated. (If applicant is a corporation, give date and place
of incorporation.)

1. The source of the proposed appropriation is White River and Preston
Big Spring (Arnoldson Spring Tributary)
Name of stream, lake, or other source
2. The amount of water applied for is 0.40 second-feet.
One-second-foot equals 40 miners' inches
3. The water to be used for irrigation
Irrigation, power, mining, manufacturing, domestic, or other use
4. The water is to be diverted from its source at the following point:
This is an application for change in the place of use of water.
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section-corner. If on unsurveyed land, it should be so stated.
(SEE SUPPLEMENTAL SHEET.)

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

- (a) Number of acres to be irrigated is _____
- (b) Description of land to be irrigated _____
Describe by legal subdivision, or if on unsurveyed land it should
be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.
- (c) Irrigation will begin about _____ and end about _____
Month
_____, of each year.
Month

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

- (d) Power to be developed is _____ horsepower.
- (e) Works to be located _____
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section-corner.
- (f) Point of return of water to stream _____
Describe in same manner as point of diversion.
- (g) Remarks _____

DESCRIPTION OF PROPOSED WORKS.

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water

is to be stored in reservoirs, it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works

6. Estimated time required to construct works

Edmund A. Muth
STATE ENGINEER

State Engineer.

APPLICATION FOR PERMISSION TO CHANGE THE PLACE OF USE OF THE
WATERS OF THE STATE OF NEVADA.

Date of First Receipt and Filing in State Engineer's Office MAY-3 1922
Returned to applicant for correction: _____
Corrected Application filed _____

The undersigned, Preston Irrigation Company, a corporation organized and existing under the laws of the State of Nevada, and having its principal office at Preston, White Pine County, State of Nevada, hereby makes application to change the place of use of waters heretofore appropriated and beneficially used as hereinafter shown.

1. The source of water supply proposed to be changed is White River and Preston Big Spring (Arnoldson Spring Tributary).

2. The quantity of water desired to be changed is 0.40 cubic feet per second.

3. The water is to be used for irrigation.

4. The water is to be diverted from its source at the following points: SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 1, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 12, T. 12 N., R. 61 E., M.D.B. & M..

No change in point of diversion.

5. The existing points of diversion under the former appropriation is as follows: No change to be made in point of diversion.

6. The water, herewith desired to be changed, has been beneficially used and continuously used upon the following described lands:

The southeast quarter of the northeast quarter of Section Eighteen (18) in Township Twelve north of Range sixty-two East, Mt. Diablo Base and Meridian.

7. The number of acres heretofore irrigated is forty acres.

8. The number of acres proposed to be irrigated is forty.

9. Description of the land proposed to be irrigated is as follows:

The southwest quarter of the northwest quarter of Section Twelve (12) in Township Twelve North of Range Sixty-one East, Mt. Diablo Base and Meridian.

10. Description of the proposed works: A proper weir and ditches and laterals leading from the main canal or ditch of the applicant.

11. Estimated cost of the proposed works is \$200.00;

12. Estimated time required to construct the works is two months.

13. Irrigation will begin about April first of each year and end about October first of each year.

14. The water has heretofore been used during the months of April and September, inclusive, of each year.

15. Remarks: This application is made at the request of Hyrum Whitlock a stockholder of the applicant company, and who has been heretofore using the said water applied herewith for a change of place of use, upon the land as herein described, and that he has made a desert entry for the land last above described and in order to make his final proof under said desert entry it is necessary for him to show a good and sufficient water right for the land embraced in said entry; that the land to which said water is desired to be changed lies under and very close to the main water ditch or canal of the applicant, and closer than the land from which it is desired to change said water, and consequently less water will be lost when such change shall have been made. That the land from which the said water is applied to be changed has been irrigated for a long period of time and lies so that little water is now required for it, and by the change applied for a greater water service will be obtained from the waters of the source of supply, and such change can not result in an disadvantage to anyone.

Dated this Twenty-ninth day of April, 1922.

Preston Irrigation Company,
By Martin Petersen
Its President.

Compared. P.P. Jones.
